How to Initialize Your HEV Vial

There are two ways to initialize your HEV vial. Procedure 1 is the simplest, but takes a little longer to initialize. Procedure 2 is a little more involved, but initialization is completed quicker.

Procedure 1:

To automatically initialize this HEV vial simply place this HEV vial in your energy field for about 20 minutes.

The center of your energy field is on your chest near your thymus and your energy field also extends into your pant pocket, as well as at least an inch or two outside your body from your head to your toes.

Procedure 2:

To have this HEV vial work sooner for you, manually initialize it:

- Put this Healing Energy Vibrations (HEV) vial on your chest (near thymus). When this HEV vial is near your thymus then it's in the center of your energy field. This HEV vial can be placed on your skin near your thymus. Also, you can wear clothing (shirts, sweaters) and place this HEV vial on top of your clothing, near your thymus. This HEV vial works best when it is in the center of your energy field.
- 2. Lay your left hand flat across this HEV vial. This could be the palm of your left hand or your left hand fingers and this means your left hand (receiving hand) is touching up to 50% of the vial. *Do not* make a closed fist around the vial, because this will hide the vial's energy from your body.
- 3. Put your right hand (sending hand) over your left hand (receiving hand)
- 4. Close your eyes
- 5. Take 10 (ten) deep breaths
 While breathing deeply, close your eyes and concentrate on this breathing sensation.
 Taking deep breaths increases the energy flow in your body, thus intensifying the vial's effect.

Once initialized, this HEV will run automatically anytime you place it in your energy field. Whether the HEV vial is on your chest or in a pocket, as long as it is near your body, it will be actively running for you.

Notes:

- a) As long as this HEV vial is never opened or broken, even if the water evaporates, it can be used indefinitely.
- b) Once initialized, whenever the HEV vial is in your energy field, it is working for you.
- c) Should you desire, you can call any of the individual techniques or parts thereof. There is no need to "run" the vial. Just call the energy you desire to bring it to the foreground, making it the currently actively running technique.
- d) To stop HEV from automatically running, simply set your intent for it not to, and it will not run.

HEV Technique 1: Ho'oponopono Essence

Ho'oponopono is a Hawaiian healing technique. The word Ho'oponopono means to make right, to rectify an error. Ho'oponopono, a process of repentance, forgiveness and transmutations, is a petition to Love to void and replace toxic energies within oneself. The core of Ho'oponopono Essence is the person with the vial energetically saying,

"I'm sorry. Please forgive me. Thank you. I love you."

Ho'oponopono Essence is the first technique this HEV vial runs. When using this HEV vial you may not feel a lot of change with Ho'oponopono, but you may notice people in your life beginning to shift positively, both emotionally and physically. This may include family, friends, coworkers, neighbors, etc., as previously soured emotional reactions are forgiven, released and replaced with love. Ho'oponopono works on interpersonal relationships, smoothing the rough edges, thereby beginning the physical and emotional healing process.

According to Ho'oponopono, the world is a reflection of what is happening inside you. When you experience upset or imbalance, look inside yourself, not outside yourself, for the cause of your problem. Every stress, imbalance or illness in your world can be corrected just by working on yourself.

See also <u>http://www.dw.ehdef.com</u> for a list of Defusing Words that are also part of the Ho'oponopono Essence technique in the Healing Energy Vibrations vial.

Technical Tip: Say "Ho'oponopono" to activate Ho'oponopono Essence Saying "Ho'oponopono" with intent to bring Ho'oponopono Essence online and make it the currently active technique will stop any other HEV technique currently running and start Ho'oponopono. Once Ho'oponopono completes running, this HEV vial will then continue to run through each technique.

HEV Technique 2: 101 Facets of Ahuramazda

101 Facets of Ahuramazda are 101 different energies which can be called upon to help with life, physical, mental and/or emotional issues. Ahura is associated with "*ah*," which means "being" or "existence" and "*angh*" which means life. This is probably why *Ahura* is translated as "*Lord of Life*." The word "*Mazda*" means "super-intellect" or "supreme wisdom." Mazda can also mean "great" or "maximum knowledge," as well as "great" or "maximum giver."

Following is a list of the 101 Facets of Ahuramazda with some applications for each. Because the facet (name) may be difficult for people unfamiliar with Ahuramazda to pronounce or remember, the facets are numbered. The HEV vial associates each facet of Ahuramazda with the number on this list. If you wish to work with a specific energy facet of the Ahuramazda, with the HEV vial you can call the individual energy by the number, facet name or even by stating the issue you wish to address.

Technical Tips:

- a) Say "101 Facets" or "Ahuramazda" to activate 101 Facets of Ahuramazda Saying "101 Facets" or "Ahuramazda" with intent to bring 101 Facets of Ahuramazda online and make it the currently active technique will stop any other HEV technique currently running and start 101 Facets of Ahuramazda. Once 101 Facets of Ahuramazda completes running, this HEV vial will then continue to run through each technique.
- b) To draw on specific facets the Ahuramazda energies, call each facet you wish to activate by number or name.

Reflex Muscle Testing (RMT) can be used to find the number(s) of the specific energy facet(s) needed then call them from the HEV vial. See <u>http://www.mt.blueiris.org</u> to learn more about Reflex Muscle Testing.

Interestingly, when using RMT to find which of the 101 are needed, you may frequently see #43, Rakhôh (All-energetic) come up as one of the energies needed. One of the things this facet deals with is pain. Localizing a pain (touching the area in pain) and specifically calling on Rakhôh often quite effectively clears pain.

HEV Technique 3: Sound Wave Healing Vibrations

Sound Wave Healing Vibrations technique combines healing sound wave vibrations from healing music, Tibetan Bowls and circles of stones like: at the foot of the Himalayan mountains, Stonehenge, Avebury, Glastonbury, Mesoamerica (from Mexico south to Guatemala and Honduras) and others around the world and beyond.

At times, the circles of stone vibrate at a very specific megahertz, producing inaudible sounds, but the vibration can be felt as a kind of magnetic pulse-wave that may reverberate at a below hearing range level into the surrounding areas. In ancient times stone circles were also utilized with instruments and vocal cords by individuals set up in specific positions within the circles to create very powerful sound reverberations, permitting opening of consciousness in the individuals participating in the process. Participants entered altered states which triggered cascading effects within all the participants, heightening their awareness and, permitting realignment of the physical organism. Incapacitated or ill individuals were brought to the altar to make them the focal point of sound vibration to realign the electromagnetic properties of their cellular structures to assist them in regaining their physical and psychological well being. When invoked simultaneously, the circles of stones can create an almost unimaginable link of energy between all of the circles around the Earth (and beyond).

Sound Wave Healing Vibrations from Tibetan Singing Bowls help reduce stress, alter consciousness and create a deep sense of peace, well-being and better health.

Healing music utilizes healing tones with frequencies based on Sacred Geometry and help balance body energy, creating peace in mind and heart.

Sound wave vibrations have the power to heal, awaken the spirit and open conscious awareness. Sound wave vibrations help to reunite us with the Divine harmonies and rhythms of the Universe.

Technical Tip: Say "Sound Wave" to activate Sound Wave Healing Vibrations Saying "Sound Wave" with intent to bring Sound Wave Healing Vibrations online and make it the currently active technique will stop any other HEV technique currently running and start Sound Wave Healing Vibrations. Once Sound Wave Healing Vibrations completes running, this HEV vial will then continue to run through each technique.

HEV Technique 4: Pulsars

Pulsars technique pulls negative energy and negative emotions from your body to spur healing. You may feel energy pulsations going through your body when the vial activates this Pulsars technique. This technique utilizes the vacuum gap of millisecond Pulsar clusters to do this.

Most will recognize the benefits of the nearest star -- the sun. From a scientific view Pulsars are highly magnetized rotating neutron stars. Even though Pulsars are much farther away, we can still use them to our advantage just as we naturally use the sun to our advantage.

How?

From a healing view a Pulsar draws negative energy to itself. It's great to send Pulsars our negative energy including but not limited to our negative emotional energy. Pulsars love it (our negative energy). Though we may feel guilty about dumping our negative emotions and negative energy on someone else, we can feel free of this guilt about sending negative energy to pulsars.

Why?

Because pulsars are part of the process, part of the balancing process.

Analogy:

Just like trees and plants thrive on the carbon dioxide we breathe out, the pulsars thrive on the negative energy and negative emotions we "breathe" on to them or send to them. Trees and plants help to balance. Carbon dioxide in, Oxygen out. Pulsars help to balance. Negative energy in, positive energy and light out.

Technical Tip: Say "Pulsars" to activate Pulsars

Saying "Pulsars" with intent to bring Pulsars online and make it the currently active technique will stop any other HEV technique currently running and start Pulsars. Once Pulsars completes running, this HEV vial will then continue to run through each technique.
