I'd like to thank Kat with all my heart, she prescribed violet bracelets and nowadays I don't feel ill in my clinic.

I bought Kat's violet energy bracelets and wear them all of the time- they really work! They block other's negative energies. Kat said to clear them in the sunlight after a week because by that time they'd picked up so much negative energy from others (they're really good for healers- which is what I am, amongst other things).

In four days, I had to take them off because they had grown incredibly heavy and itchy. I put them in the window to clear, and now they feel very light and comfortable. Talk about absorption! And since I'm a HSP- I really need this.

Thanks, again!

Take care,
